

# CROCKETT COUNTY

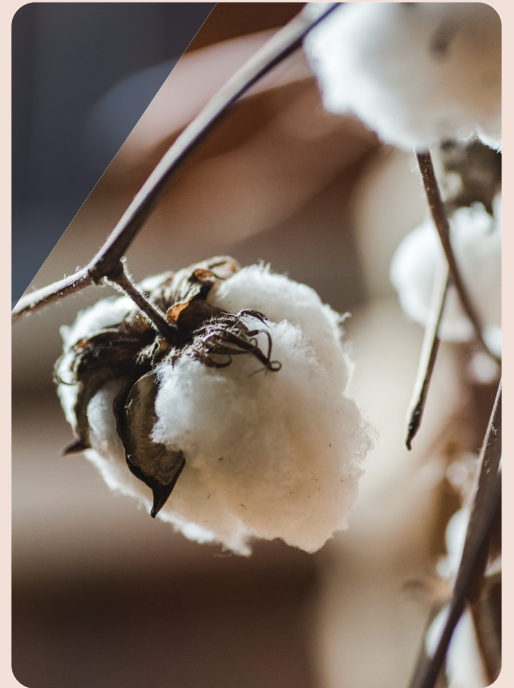

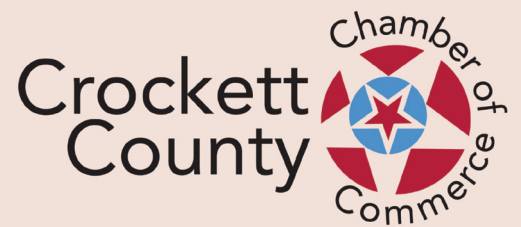

## West Tennessee's Best-Kept Secret

Crockett County is located in the heart of West Tennessee. Though small, Crockett County, Tennessee is the embodiment of good. When visiting Crockett, you feel a slower-paced lifestyle with the most welcoming community. There are few places left in America like this wonderful community where children still play in their yard and neighbors greet each other on the street and in the local grocery. While agriculture is the leading industry for the county, Crockett is also a unique destination for visitors. From the Tennessee Safari Park and Green Frog Farm & Cotton Museum to our 10+ local boutiques, new state-of-the-art BlueCross Healthy Place Park, and multiple family-owned local restaurants, Crockett has much to offer its residents and visitors alike.

## TENNESSEE SAFARI PARK

The Tennessee Safari Park boasts a 7.5-mile drive-through safari and as well as a 20-acre walk-through zoo offering guests the exclusive opportunity to interact with and feed exotic animals up close. The park offers completely unique experiences including a pygmy goat petting zoo, Parakeet Landing with multiple species of free-flying fowl, immersive squirrel monkey exhibit, Sloth Barn, and giraffe feeding station. The Tennessee Safari Park also has a seasonal drive-in movie theater showing the latest box office hits.
